Let us handle payments, while you grow your business

You've received this document because we think you'd benefit from Sage Salary and Supplier Payments, powered by Modulr.

We highly recommend this solution to all of our valued clients. It allows us to manage every aspect of your payments effectively and securely, while providing you with richer business and financial performance insights.

What is Salary and Supplier Payments?

An online solution that allows your accountant to securely make payments on your behalf to employees and suppliers. The payments are processed directly from Sage products, including Sage50cloud Accounts, Sage50cloud Payroll and Sage 200cloud.

How will your business benefit?

As a business owner, one of your most critical tasks is making sure employees, suppliers and invoices get paid on time. But managing payments can be stressful, tedious and time-consuming.

With Salary and Supplier Payments, your accountant can do the heavy lifting for you. They can manage all of your day-to-day payment admin from one secure platform.

This frees you up to focus on what you do best – growing your business.

- Your accountant will ensure that your staff, suppliers and invoices get paid on time.**
- You can approve pre-populated batches of payments in just a few clicks.**
- Give your accountant full visibility so they can optimise your spending.**
- Get a clear overview of your financial health without trawling through the detail.**
- Your payments are managed in a single, regulated and secure platform.**

How do you get started?

As your accountant, we can help you get set up with Sage Salary and Supplier Payments.

Simply reply to this email or give us a call for more information.

“When we started using Salary and Supplier Payments, powered by Modulr, it was an “a-ha” moment – like someone went into my brain and built exactly what we needed. It’s a massive time saver.”

Rebecca Byrne,
Financial Controller,
Simply Lunch
